They will show you how they collect vanilla beans and turn them into rich and flavorful vanilla. It is a tedious process, and you will leave this tour understanding why good vanilla is pricey on your local grocery store shelf. Continue visiting a local Rum distillery where we learn all about the rum-making process, and won't pass on the opportunity to taste at least a few.

Next, we visit a local pearl farm where we learn how the pearl oysters are harvested, cleaned, opened, taken out, sorted, classified and made into jewelry.

Our final stop is sure to be a highlight of your trip especially if you love snorkeling. After we arrive to one of the very few motus of Taha'a, we walk a short path to where the snorkel begins and then wade into the water of the lagoon behind your guide. One by one you will begin to snorkel and drift with the current; all you need to do is float. No kicking required. Make sure to keep enough room in front of you and follow the guided route as some places are shallow and the coral is sharp! As you drift you will see some of the most colorful and beautiful coral still left in the South Pacific. The channel is teeming with huge variety of fish, and, if you search carefully, you may even be lucky enough to find Nemo. You end this wonderful adventure in a calm part of the lagoon where you can swim and relax.
